### CAN YOU NAME OUR NEW MASCOT PICTURED ABOVE

#### HOWDY FOLKS!

WE ARE NOW TO THE POINT WHERE WE CAN SAY WE HAVE THE ALL-SERVICE NEWSPAPER FOR THE COLLECTOR'S COLLECTOR. WE WISH TO THANK THE 1250 NEW SUBSCRIBERS AND THE MANY ADVERTISERS WHO HAVE MADE THIS ISSUE EVEN LARGER. IF INTERESTED IN PUTTING YOUR AD WITH US, SEE THE LOW RATES ON PAGE TWO.

WITH THIS ISSUE COMES A FINE BONUS. THE PUBLICATION "CASH ON THE LINE" BY JOHN NOVAK. WILL BE FOUND ON PGS. 9-10, 15-16. THIS PUBLICATION (COTL) IS DEVOTED TO ORIENTAL NUMISMATICS. MR. NOVAK HAS, FOR FOUR YEARS, PUBLISHED COTL FROM THE FAR EAST. WE HOPE HIS FINE WORK WILL REMAIN IN THE PAGES OF "COLLECTORS' DEN" IN FUTURE ISSUES. WELCOME, JOHN NOVAK.

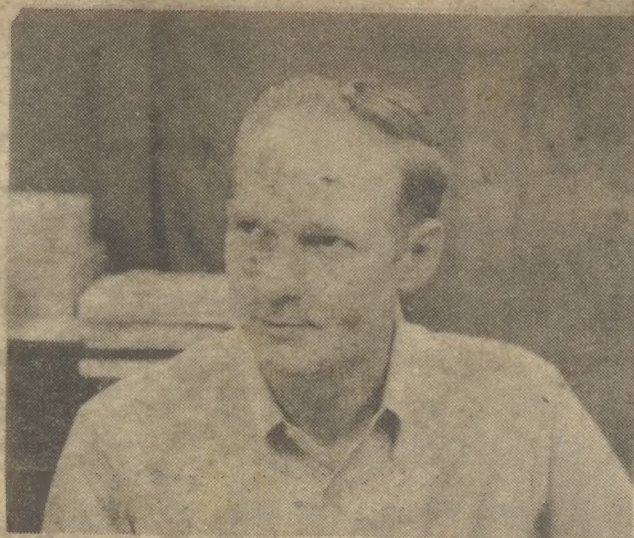

LIKE MOST OF YOU, I'VE BEEN WATCHING THE MOON LANDING. SORT OF MAKES ME PROUD TO BE AN AMERICAN. DON'T KNOW WHAT IT WILL ALL LEAD TO BUT I CAN'T WAIT TO INCLUDE A LISTING OF LUNAR MINERAL SPECIMENS IN THESE PAGES.

WHAT KIND OF PEOPLE COLLECT? CAN I AFFORD TO COLLECT? WHAT SHOULD I COLLECT? THESE ARE SOME OF THE MANY QUESTIONS WE GET ASKED ALL THE TIME. THE ANSWERS ARE MANY AND VARIED BECAUSE THE TYPES OF PEOPLE ARE VARIED. WE HAVE CUSTOMERS FROM EVERY INCOME GROUP, ALL RACES AND NATIONALITIES AND BOTH SEXES.

WE ARE COUNSELLORS FOR THE BOY SCOUT, STAMP & COIN MERIT BADGES. SO WE GET MANY YOUNGSTERS THROUGH OUR DOORS SEEKING OUR SIGNATURE ON THAT BLUE PIECE OF PAPER THAT GETS THEM A BADGE. MOST OF THEM ARE ENTHUSIASTIC COLLECTORS WHO REMAIN WITH THE HOBBY THROUGH ADULTHOOD BUT A FEW ARE COLLECTORS OF JUST BADGES, NOT COINS OR STAMPS. THESE BOYS GET A RUN FOR THEIR MONEY FROM US. AS SOON AS WE HIT THEM WITH THE 3RD QUESTION OR SEE HOW THEY INTEND TO PRESENT THEIR REQUIREMENTS, WE KNOW JUST WHAT THEY'RE UP TO. THEY USUALLY DON'T STUDY OR EVEN SET UP A DISPLAY OR PRESENTATION. AFTER TWO TRIPS BACK TO US, THEY EITHER SEEK OUT ANOTHER COUNSELLOR OR GO FOR THE BASKET WEAVING MERIT BADGE.

THERE ARE MANY EXECUTIVES AND BUSINESS MEN WHO, AFTER A DAY OF PRESSURE AND DECISION MAKING, ESCAPE TO THEIR GUN COLLECTION OR ANTIQUE BOTTLE COLLECTION FOR A RELEASE OF PRESSURE. MANY DOCTORS WILL PRESCRIBE A COLLECTING HOBBY AS THE BEST CURE FOR MANY PROBLEMS.

CONTINUED, PG. 6

We'll call him "Den Dragon" until we get a better name from one of our readers. He was conceived on July 3rd. at 1:20 A.M. After a very short incubation period, he was born. The labor was painless but we paced for days. Finally, on July 18th. we saw him in full color! Thanks to Gene Warner's art work.

"Den Dragon" represents our many interests. As you can see, he too, is fond of all collecting fields. We had to adopt him as our Mascot.

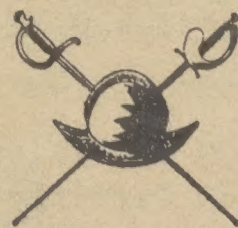

We badly need a good name for him. We will award the winner \$100.00 cash for the best answer accepted (as per the rules) by the Judges, (Our Staff).

## Looking for Modern Chinese Coins?

## THE HAPPY MANDARIN\*

A word about the sources used. I would have much preferred using Patrick D. Hogan's numbering and identification system exclusively. Unfortunately, as of yet not enough of you have it. And, besides, I left my copy in Ohio. I hate to use all of the following in order to make any sort of reasonable identification, but I must.

A.B. Coole, *Coins in China's History*, 3d edition, 1963.

E. Kann, *Illustrated Catalog of Chinese Coins (Gold, Silver, Nickel and Aluminum)*, 1966 reprint.

H.A. RAMSDEN, *Modern Chinese Copper Coins* 1962 reprint.

S.C. Wong, *Rare Chinese Coins, (Cash on the Line 1969 reprint/revision)*.

R.S. Yeoman, *A Catalog of Modern World Coins, 1850-1964*, 8th edition.

## COPPER COINS OF THE GREAT CH'ING DYNASTY

The following are 10- and 20-wen pieces of the Empire. The first series carries on the reverse the Chinese legend TA CH'ING T'UNG PI, "Copper Coin of the Great Ch'ing (Dynasty), the date (in the sexagenary cycle), and if a provincial issue, a special character in the center of the reverse.

I found it very difficult to grade coins for which no recognized criteria exist, and chances are we will not agree in every instance. It should balance out.

## 光緒

Another series of 10-wen coins contains the inscription KWANG HSU YUAN PAO on the reverse, indicating "The original (?) coin of the (Emperor) Kwang Hsu" who ruled from A.D. 1875 until 1909. The following are arranged by provincial mints. The mint is indicated, normally, with the Chinese characters, the Manchu script, and English. The latter is found on the obverse. Dating is often given in the sexagenary cycle method.

# ELONGATEDS

ELONGATED COINS - Not a new novelty but a very popular collecting field. An Elongate is a coin, generally a penny that has been rolled through a rolling machine (often found in the past in Penny Arcades) which had a die mounted in it to leave a new design or inscription on the now long, oval shape coin. This was a popular souvenir item, even as far back as the Columbian Expo. 1892-93.

All are Lincoln Cents unless indicated by: (clad dime) or (1967 Canada 1¢) etc. Order by number, please give second choice. Order from: STANLEY K. RUPERT "COLLECTORS' DEN"

## HOWDY FOLKS! CONT'D.

IN THIS DAY AND AGE, PEOPLE HAVE FEWER HOURS IN THEIR WORK WEEKS. THIS GIVES THEM MORE TIME TO DEVOTE TO A HOBBY. COLLECTING APPEALS TO MOST PEOPLE BECAUSE OF THE PERFECTLY NORMAL REQUIREMENT OF PEOPLE TO OWN OR POSSESS SOMETHING. WITH MORE TIME ON THEIR HANDS, THEY HAVE TIME TO ACQUIRE, STUDY AND DISPLAY THEIR PET HOBBY. YOU MAY BE A SALESMAN, HOUSEWIFE, TV STAR OR A 6TH. GRADE STUDENT BUT YOU CAN STILL COLLECT SOMETHING.

THOSE WHO WONDER IF THEY CAN AFFORD TO COLLECT MIGHT KEEP A COUPLE POINTS IN MIND. THE BUILDING OF A COLLECTION, IF DONE CAREFULLY, WILL GIVE YOU A SAVINGS ACCOUNT OR INVESTMENT HOLDING THAT HAS A VALUE WHILE SPORTS, EATING OR MOVIES AS A PASTIME HAVE NOTHING LEFT OVER. A PERSON WHO SMOKES WILL SPEND \$300. TO \$400. PER YEAR. MANY FINE COLLECTIONS HAVE BEEN PUT TOGETHER ON A MUCH SMALLER BUDGET WITH A HANDSOME INCREASE IN VALUE THROUGH THE YEARS. WE HAVE CUSTOMERS WHO SPEND AS LITTLE AS \$1.00 A WEEK THAT HAVE MORE PLEASURE COLLECTING THAN THE MILLIONAIRE WHO CAN BUY A COMPLETE COLLECTION IN ONE SWEEP (AND USUALLY DOES). THERE IS MUCH SPORTSMANSHIP INVOLVED IN COLLECTING. SOME COLLECTORS, BY TRADING OR "SCROUNGING" AROUND CAN SATISFY THE URGE OF COMPLETING A COLLECTION WITHOUT INVESTING A PENNY.

THE ONE LINE THAT COVERS THE QUESTION; CAN YOU AFFORD TO COLLECT? IS "DON'T BITE OFF MORE THAN YOU CAN CHEW". KEEP IT A HOBBY, NOT A JOB.

NOW YOU SAY WHAT SHOULD I COLLECT? THIS IS A BIGGER QUESTION THAN YOU MAY THINK. A DRUG SALESMAN MAY COLLECT ANTIQUE PATENT MEDICINE BOTTLES, A SAILOR OR MERCHANT SEAMAN MAY COLLECT SHIPS ON STAMPS, COINS OR ART WORKS. A FORD AGENCY MANAGER COLLECTS ANYTHING PERTAINING TO THE FORD MOTOR CAR CO. (PRE-1936). MANY PEOPLE TIE THEIR COLLECTION IN WITH THEIR BIRTH YEAR BY SEEKING ANYTHING DATED THAT YEAR.

TO SELECT YOUR FIRST FIELD (OR A NEW FIELD), DON'T DIVE IN. FIND WHAT LOOKS INTERESTING TO YOU, THEN FIND ITS' DRAWBACKS. SEE IF YOUR BUDGET WILL HANDLE IT. IF EVERYTHING CHECKS OUT, GO AHEAD ---- ENJOY IT.

## FINE ILLUSTRATIONS AT 1/10 TH. OF A CENT EACH. . .

AN ANCIENT METHOD REFINED.....Pencil Rubbings or Foil Impressions

With the cost of photos, generally high and time consuming, I was forced into finding an inexpensive way to illustrate coins, tokens and medals at a cost that would not exceed the value of an item being illustrated. When you have to list a token in a pricelist, if the token sells for only 15c, you can't spend 35c worth of film, 50c worth of descriptive time, you just can't afford to list it. This is where pencil rubbings come into it.

To start with, you need ingredients; the main one of which is a Seal Press such as a Notary Public may use (sample illustrated). The Seal Press can usually be found in junk shops, used for as little as \$1.00 or so. If, like myself, you don't have the time to look for one or scrounge around, then buy one new at a Rubber Stamp Outlet or Office Supply Distributor. Cost is about \$22.50 for a nice one. The one I use is 10" long, 7" high, 3" wide. The Seal Plate & Base is 2 1/2" in diameter. Next, a few pieces of rubber (strips from a tube repair kit work fine). Now a metal slide 1/16" - 1/8" thick, 2 1/2" X 4" aluminum or copper or whatever is handy. Next a rubber stamp pad with black ink. Don't crack up yet, get an old white glove from your wife's Easter Sunday rejects. You will need to cut the fingers off. Find one that fits over your index finger firmly, the fewer seams it has, the better. Now heavy spring clip (paper clip). Lets see... Oh yea, we now need tissue paper. try a few grades or thicknesses for preference but I use Air Mail "Flightex" onion skin, light weight bond with a funny looking mailman racing an airplane (and beating it) on the front. For foil impressions, regular aluminum foil (non quilted) is all you need. By now your wondering what in H\_\_ you use all this stuff for.. Let's find out.....

First, round base plate (C) must be blank (if an old seal is mounted there, it can be knocked off or melted off leaving blank table). The table (C) on mine has two holes, doesn't bother a thing. Now take seal (E) from drive shaft (D). This also must be blank. A round metal disc. can be mounted over old seal with Epoxy or a new blank seal can be bought to fit. Cut from your piece of rubber, a round disc. the same diameter as (E). Apply rubber cement to surface of (E) and newly cut rubber (K). Attach (K) to (E), allow to dry securely. Now take piece of soft cotton or linen cloth (L), wrap securely around (KE) and base of post (M). Draw tight, glue or tape can be used on loose ends on top to hold in place, (L). Now replace into shaft (D). Now to base slide (J) on the center of this 2 1/2" X 4" metal plate, mount another rubber disc (G) - (Same diameter as (E)).

Would you believe your ready to go??? Not quite. A few practice tries are required to get the "Touch".

Lay coin or token subject (F) on center of slide and (G), cut strip of tissue (I) wider than coin. Clip end of strip over end of slide (H); draw tight over coin (F) to other end, clip there also. Center subject (F) on table under seal (E), push handle (B) down firmly, (count to ten or so) raise handle, with your index finger, rub tip over rubber stamp pad (medium ink), rub same over impression clearly raised in the tissue paper.

By now you get the idea so now you try degrees of inking, pressure, rubbing, etc. to get the ultimate. Any questions?

For foil impressions, use piece of tissue between foil and seal (E) to prevent sticking.

If I can be of additional help or if you fail to understand any of this, let me know. Examples are illustrated below of various "Pencil Rubbings" made by the described method.

### COLLECT JAPANESE COINS OF MEIJI WITH CAUTION!!

The death of the *KEIO* Emperor coincided with the demise of the Tokugawa Shogunate and the complete collapse of the feudal society that had been perpetuated through a policy of isolation from the rest of Asia and the world. When *MUTSUHITO* became the Emperor *MEIJI* in 1868, his ascension served as the catalyst that set in motion Japan's return to the international scene and internal modernization.

None of this was very obvious in 1868, and both the coinage and the documentation concerning the coinage reveals this only too clearly.

Three numismatic factors must always be kept in mind by the collector interested in the coinage of the *MEIJI* Era -- an era that began in confusion, civil war and western interference, and which ended in 1912 with Japan a strong and at least superficially a modern state. One should expect to find (1) unreliable mintage figures, (2) large numbers of error coins and varieties, and (3) a goodly number of pattern pieces.

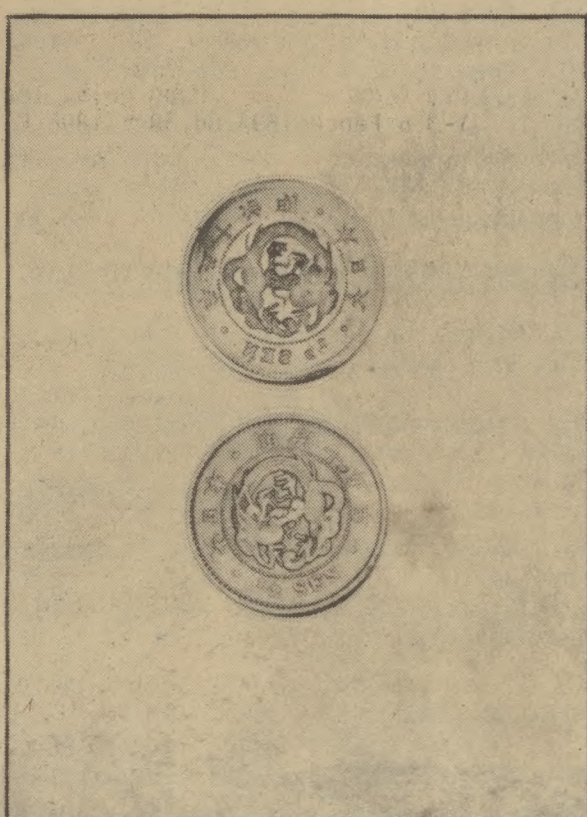

There are at least four sources for Japanese mintage figures available to the collector in Japan today. These books are strictly coin catalogs, and quite frankly, borrow rather heavily from each other. There are two coin catalogs available in English, and these works have borrowed from the Japanese. *THESE MINTAGE FIGURES CANNOT BE ACCEPTED AT FACE VALUE BY THE COLLECTOR!*

In actual fact, coins with one date were often made in years other than that published on the coin. Mintage figures for, say 1881, were probably totals for that year, but any old number of dies (for 1880, 1879, etc., etc.) could have been used in addition to, or instead of, the year 1881. Most surprising to some collectors will be the news that *NO* coins were minted in the year 1870 -- although a variety of coins do have that year-date on them!

If the collector knew that a number of 1870 coins were produced, no matter in what year he would still be satisfied. Unless latter day restrikes are involved (and they are not), the actual year of mintage is of less importance than the total number produced. However, the collector cannot be sure that even an accurate count is available here.

John A. Kromas once prepared a short article on the early *Meiji* coins, using mint figures "from the official reports of the Osaka Mint for 1871 to 1875." He indicated that according to these figures, the Twenty Yen gold piece dated 1870 was struck in 1872 for a total of 42,845 pieces, and in 1873 with 3,251 pieces, or a total number of 46,096. Most Japanese coin catalogs indicate 46,139 pieces in 1870. The two sets of figures are remarkably close in this instance. The example, however, very graphically illustrates almost all of the problems and pitfalls that await the collector in the United States who has been used to accurate and revealing mint statistics.

Quite obviously there are also going to be varieties in coins of the same date (but perhaps not minted in the same year). For the first design Fifty Sen silver coin, there are three diameters one might find: 32.55mm, 32.15mm, and 31.2mm. This coin was struck with two dates, *Meiji*-3rd year (1870) and -4th year (1871). Besides the differences in diameter, there are four varieties of the 1871 coin generally recognized by Japanese numismatists -- two in the larger diameters (where the character *hon* 本 is isolated as being different) -- and 2 in the 31.2 diameter based on the size of the dragon. There may even be others, not yet recognized, because in the early years reworked and overworked dies were commonplace.

There are examples in the early Japanese coinage of almost every conceivable error known to the minting process. *BROCKAGE* pieces are easily obtained by collectors, although usually at rather high prices. Brockage coins exist for each of the four copper denominations that were initiated after 1874. (*Brockage* refers to a coin, one side of which has a negative image of the other side. In the minting process, a blank is placed between the obverse and reverse dies, and the coin struck. Brockage occurs when, after one coin having been so struck, it does not kick out of the collar, and remains when a new blank comes into position. The blank rests on the finished coin. The one die will strike the blank properly and produce the expected results, but the other die merely hits against the first coin which in turn hits into the blank -- and leaves a negative impression on the blank). In addition to brockage pieces (which for Japanese coins are found with both obverse and reverse varieties for all copper pieces of the *Meiji* era), there are also examples of complete blanks. Some of these have completely worked rims (with reeding, etc.) and edges and others have no work on them at all. One would also suspect the whole gamut of clipped planchets, although the Japanese are not noted for collecting these, and the present writer cannot recall ever having seen one for the *Meiji* coinage.

The knowledge that a great many patterns were suggested and made in some quantity (even if difficult to acquire today) is another problem to the collector. Not that he is required to own any patterns, it's just when an "odd" piece shows up -- he might be willing to believe that it is a pattern -- rather than a fantasy or a poorly made counterfeit.

### COWRIES, ANYONE?

While browsing through *The Shell Book* by Julia Ellen Rogers (published in Boston in 1908) I found out that a Hindu mathematics book of the 7th century A.D. had the following problem: "The  $\frac{1}{2}$  of  $\frac{1}{16}$  of  $\frac{1}{5}$  of  $\frac{3}{4}$  of  $\frac{2}{3}$  of  $\frac{1}{2}$  of a drama was given to a beggar by one from whom he asked an alms; tell me how many cowry shells the miser gave." Same book says that Marco Polo found cowries in Yunnan. Also, did you know? In Africa in 1908  $2\frac{1}{2}$  strings of cowries = one English penny, while 40 shells = one string. 50 strings = 1 head, and ten heads = 1 bag. 3 heads (6,000) = \$1. Also, it took between 60,000 and 100,000 cowries to buy a young wife (or \$20-\$40). An older wife (I knew you were going to ask) was only \$6, or 20,000 cowries. How 'bout that for your file of useless information?

Japanese numismatists are very sensitive about counterfeit coins, and often their national pride is hurt when one even suggests that one of their countrymen might be making phonies. However, *reference coins* are perfectly legitimate and are not counterfeits. Reference coins (*sankohin* in Japanese) are reproductions of real coins. They are advertised as reference copies, even though most of them do not bear a warning on them that they are not genuine. The basic assumption which is made is that anyone can tell the difference. Well, anyone can -- anyone who has ever seen the original, anyone who is fairly conversant with Japanese coins, anyone who is reasonably willing to carefully study the subject *before* he buys.

The illustration below is a reduction of a Japanese postcard. It very plainly advertises four Japanese one-yen coins of the *Meiji* period. All four coins are identified as reference copies, and the per coin price is only 1,000 yen, or \$2.80! The top piece is dated 1875, the second is a trade dollar of 1875, the third coin is the 1870 one-yen, and the last copy coin in the series bears the date 1878. *What a group of coins!*

(This subject will be continued in a later issue, with some concrete ideas on how to enjoy collecting *Meiji* coins.)

### COTL SPECIAL AUCTION

A SPECIAL CASH ON THE LINE AUCTION. During the five years I spent in the Far East, I had the opportunity of digging coins out of the ground, buying them from the dealers, antique and junk shops, and even bidding for them on the Japanese auctions. I have a reasonably good idea what some of these "rusty washers" are really worth. So, when Stan Rupert agreed to let me put on a special auction of my own, within the pages of *CASH ON THE LINE* (but still within the confines of his own auction), I insisted on being allowed to include MINIMUM BIDS. In his auctions, as of now anyway, there are no minimums as such, although owners are allowed to put a reserve on any coin they own. And while the phrase "no ridiculous bids accepted", I just what to know what IS a ridiculous bid? Ridiculous in the eyes of (a) the owner, (b) the auctioneer, or (c) the bidder???? My minimums have been established to let you know what I think would be ridiculous. Now, if you think I'm too high, you'll forgoe the pleasure of bidding, naturally. I'm sure that if you think I'm too low, you'll be delighted to bid, knowing that I've committed myself to accept my own established minimum -- or anything higher. And I'm not trying to start a revolution, either. I just think that prices on Oriental coins in the U.S. are all cock-eyed. Plain unreasonable in many cases. If this auction, and others like it, can help establish reasonable price guides, then maybe I'll also change my well known opinion towards "trends" and help publish some sort of help to the collector.

Remember -- the prices listed here are MINIMUM BIDS. No lower bids will be accepted. Send all bids to STAN RUPERT on his auction form, using the letters COTL (*CASH ON THE LINE*) followed by the auction number for the lot you desire. This special auction begins on the date of THIS ISSUE of COLLECTORS' DEN, and ends on the publication date of the next issue. The grading for this auction is mine (and I'm not as conservative as Stan), but all regular return privileges are, of course, granted. All coins are genuine and as described, and if any errors of the flesh occur, they will be acknowledged in print.

#### CASH ON THE LINE RELOCATES TO TEXAS; NEWSPAPER FORMAT ADOPTED AS INTERIM MEASURE

*CASH ON THE LINE* (abbreviated as COTL) is an independent periodical devoted exclusively to Oriental numismatics. The purpose of publication, simply stated, is to provide an English-language vehicle for the dissemination of information about Oriental numismatics. COTL is solely owned and edited by John A. Novak. It has been published in a variety of shapes and sizes, and has variously been printed by mimeograph, ditto process, xerox-offset and photo-offset. The first issues were printed on Okinawa in early 1965. In late 1966 COTL appeared from Misawa, Japan, and the first commercially produced copy was made on Okinawa in December, 1967. To date there have been 61 regular and four special issues. The 1969 subscription fee of five dollars paid for six issues; nos 57 thru 61, and a reprint special of S.C. Wong's *RARE CHINESE COINS*. All six items have been delivered to subscribers and the rolls were closed, according to the original plans, until the 1970 series. The present newspaper format is both an

interim measure and an experiment. COTL hopes to take advantage of the wide distribution of *COLLECTORS' DEN*, to entice enough new subscribers to make COTL '70 a commercially feasible possibility, since there are no intentions of operating in the red beyond the end of 1969. If the newspaper format proves satisfactory, or is the only way to continue publication, it will be used. Likewise, it will remain an integral part of *COLLECTORS' DEN* if this relationship proves to be both mutually satisfactory to all parties concerned, and essential to the continued life of *CASH ON THE LINE*. Interested readers are invited to send \$1 for a COTL sampler -- issues from both the 1968 and the 1969 series. Other back issues from # 45 are also available to anyone interested. Write to:

# Comic Corner

Greetings:

Since our last edition I have been fortunate enough to see, even if not to own, many of the great classic comic rarities we all dream about. I'm speaking of my trip to the recent Comic Convention in Houston. I was only able to attend the opening day so I missed many of the Special Events (Auctions, Movies, etc.). However, if you had to pick one day, that was the day. At the rate all of the better items were selling, I imagine that many of the First Class Pieces were not to be had at any price by the second day.

Collectors of all areas and all ages appeared to be well represented despite the admission price of \$2.50 per person. This seemed very high to me considering all of my experiences with the largest Coin, Stamp and Antique Shows in the country where if they see fit to charge any admission at all it never exceeds \$1.00. It must have seemed high to all of the youngsters too that I saw counting their hoarded allowances to see if they could afford just one more Spiderman.

Overall it appeared to be a very well organized show and I would imagine that all of the dealers left quite satisfied. Early in the morning I mentally noted one table which I planned to return to after making my complete tour. When I returned a couple of hours later, the table was empty and as far as I could determine, the man had totally sold out and closed up shop.

I'm sure you are all wondering what was hot. If you had to pick any areas over others, it would have been as follows; The Timeleys and the early Disney items seemed to be the hottest of all; These were followed by the early DC's (Adventure in particular) after that it was too close to pick favorites. There were many collectors looking for work by particular artists, others like myself, were just looking for anything that struck our fancy.

One thing for sure, no matter what you were looking for, they had a good cross section to choose from. There were, aside from actual comics, items such as S.F. pulps and paperbacks (would you believe back into the 20's) original art work by some of the great artists, fanzines of every conceivable nature. Also related items such as radio tapes, Sunday and daily newspaper comic strips, Big Little Books etc. etc. There were even some toys, decoder rings, Mickey Mouse watches (even a Mickey Pocket Watch) ray guns, space ships, old movie posters and stills and I don't know what else that I didn't even see.

All told, this was to me a great day and being my first Comic Con. has only served to wet my appetite for the one scheduled later this year in Oklahoma City.

# MING

The Chinese *MING* Dynasty began in A.D. 1368, and held the Mandate of Heaven for 276 years, officially coming to an end in A.D. 1644. During this period of history, Geoffrey Chaucer was born and died, leaving behind his *Canterbury Tales*; John Huss was burned at the stake and Martin Luther posted his 95 theses on the door of the Wittenberg Cathedral; Columbus discovered America and Francis Xavier discovered Japan; William Shakespeare was born and died, leaving the world of letters much better than he found it; and the Mayflower landed at Plymouth Rock.

There were 16 rulers during the *Ming* Era. The first was a Buddhist monk, *Chu Yuan-chang*, who drove the Mongols out of China. He is known as the Emperor *HUNG WU*. It was Hung Wu's son, known as *YUNG LO*, who gave China a great gift -- the city of Peking. The Yung Lo era also saw the Chinese excell as sea merchants -- to the point of traveling all the way to Africa. But later emperors were poor: Cheng T'ung gave all his power to a eunuch, and Cheng Te spent most of his time in the red light districts. The last official emperor, *CH'UNG CHENG*, killed his own family by hacking them to pieces with a sword, and then hanged himself.

The coinage is not frequently collected by Americans, and usually one sees only a short series. Actually, there is a large number of different coins, and the *Ming* series contains some of the most difficult to obtain coins of any from China.

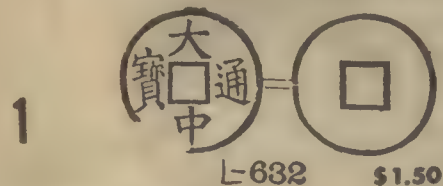

Most of the illustrations for this article come from the Glover Collection, as presented in the three-volume work by Lockhart, W358, *The Currency of the Farthest East from the Earliest Times up to the Present Day*. "L" numbers here refer to this basic source. All illustrations are reduced 70%.

An attempt has been made, in some cases, to provide a realistic market value, an addition to this article that can only bring grief to the writer.

CORRECTIONS NEEDED IN  
BOOK ON ANNAM COINS

Ever since I wrote A WORKING AID FOR COLLECTORS OF ANNAMESSE COINS I've been regretting it. There are a variety of reasons, the most important of which has to be the number of errors that crept in and which I am, of course, responsible for. In hopes of taking care of just one area, here is a list of reign titles that I should have used -- but didn't. These are correct, so please make the necessary changes in your copy.

## LETTERS

Dear Stan and Marcia:

Your sample copies of Collectors Den received and thank you. I am enclosing order from Issue #4 and 3 year subscription.

I enjoy your illustrations in your publication - good:

Respectfully,  
Stanley Janusz

Dear Stan:

Many thanks for the copies of Collectors Den. I enjoy the publication very much - Enclosed is \$2.50 for a years subscription. Also I would like to order the following Mexican Coins from. Page #10.

William V. Kaiser

Thanks for sending the Collectors Den. You should work out something real good the way the paper is shaping up. You need more ads of better coins for sale. Also a trading column. I think she's gonna go.....

"COLLECTORS QUIZ" WHAT COUNTRY ISSUED THIS MEDAL?  
AND WHY? "STAR FOR GALLIPOLI"

Dear Sir:

Here is my answer to the Collectors Quiz on page 12 of your June 30 issue.  
STARMAN (DC Comics)

You have an excellent publication and much credit is due you for your original format. Keep up the fine work. If possible I would like to keep receiving your paper for the next few months, I will probably be unable to buy anything because I will be going to college this fall and money is scarce but I would like to see what you are offering.

Very truly yours,  
Gary Borkan

Stan, or rather Marcia,

I'd like to thank you for sending me your Collectors' Den. My subscription is on the way, along with some items for the next Auction. Ron Rakun might like to know the following mistakes in his article: Mystic, 2nd series, ran 4 issues not 3. #4 contained the Destroyer and the Young Allies. Daring Mystery became just Daring with #9 and ran to #12 Daring Mystery stopped with #8 was continued as Comedy #9 & 10, than was revived as Daring for #9-12. Complete #2 was a continuation of Amazing #1. There was no All Winners #20, Timely Also put out Miss America #1, 2 (1944), Marvel Boy #1, 2 (1950). All Winners (one shot 1948) w/capt., H.T., Subby, B. Phan., Namora 1-3 (1948), Sun Girl 1-3 (1948) and Red Raven (1940 one shot).

The article could have been done from any of the numerous indexes available. If you want, I'll do one on E.C. How about it?

## from the "DEN" MOTHER

VANITY, THY NAME IS VICTORIA

BY Marcia Rupert

To age the way we would like to, the wish of almost everyone, especially we females. Queen Victoria came as close to having this wish come true as anyone.

The Stately Queen reigned for 63 years, from 1838 until her death in 1901. The coinage of Great Britain and the Commonwealth bore her portrait throughout her entire reign. As Queen, she had the final word on any portraits to appear on the coinage. One would assume that her female vanity probably played a part in her selection of a most becoming likeness.

Victoria was but a young girl when she took the Throne. Her first likeness to appear on the coinage showed her facing left, her hair pulled back from her face and neck in waves with a cascade of curls at the back of her head, a very regal young queen, looking almost like a Greek Goddess. This portrait is referred to as the "Young Head".

The "Young Head" Victoria remained on all denominations until 1887 with but one exception. In 1847 a beautifully designed crown was issued to commemorate the 10th year of her reign. Victoria emerged in beautiful Gothic Style, a most classic example of Victorian Art. This "Gothic" design remained on the Florin from 1849 until 1887.

In 1887, her Golden Jubilee year, the coinage was redesigned and depicted the now aging queen with a much heavier profile and a small crown balanced none too securely on top of her head.

The Jubilee Portrait was replaced in 1893 by a portrait more suited to the queen, now in her 74th year, again a heavier profile, however quite becoming for a woman of her age. A veil draped from her larger crown. This portrait, later called the "Old Head" was used until her death in 1901.

A historic queen, however, it has been disputed that she was as becoming as her coinage shows her. But as Queen, this is how she saw herself, how she wished her subjects to see her. This was her choice, and perhaps her vanity too???

## WITH CUP OF TEA IN HAND --

Hear ye, hear ye,

No doubt you noticed the length of time of session #1 on bidboard #89. We had to run it for two weeks longer than normal to adjust the lead time in printing to make sure mail bidders had time to bid. But all is now well. As a matter of fact, we are now on a very definite schedule starting with this issue. This schedule was explained in the last issue. Up to now we have been trying just to get organized. You can't imagine what it is like to put out this paper, run the store, run the bidboard and still stay married. And we only have five people doing all this. I don't know what Stan is losing more of, hair or sleep.

After 4 or 5 boards, you begin to get an idea of what sells and what doesn't. We are in pretty good shape because about everything is selling. However, we have noticed that the junk lots are not doing well. By junk lots I mean a group of items of all sorts that list for \$2.00, or around there. We found that they don't sell for enough to make it worthwhile for people to put them up. Lately we have been getting a good quality of coins, stamps, etc. and it is getting better all the time. For this reason, in the future, we are planning on rejecting these junk lots that we know are just junk and won't sell. This will save the seller from paying a buy-back commission and it will save the bidders from having to read thru all this in the paper. We will, of course, keep taking lots of groups that catalog over \$5.00 and singles that catalog over \$2.00. We are aiming at a better quality of items on the board. I would like to explain one thing however. This doesn't mean that we want only B.U. items. A 1910-S U.S. 1¢ in Good, sells just as well as an XF. The only thing that we want to get away from is the junk groups.

Next month I plan on talking about grading, and in particular, the way I describe the lots on the bidboard. There is something that I am curious about. Toned Coins. I am not going to make my feelings known at this time, but I do plan on airing my views in the near future. I would appreciate any comments that you care to make on Toned Coins. Feel perfectly free to write me a line or two.

Better close for now, take care and see you next month. If you have any questions, or gripes, or anything you wish to talk about, feel free to write.

Ray
